

Hello California Truckers. Can we let you in on something new? Introducing "THE CELLO" by Precombustion Technologies

A 8 to 12 liter per minute hydroxygas generator

The QUAD CELL trucker unit, with aluminum case

**Increase MPG by 30% to 54%
Clean emissions by 90%!**

HydrogenTrucker.com

Installs since Nov. 08 are getting 30% - 60% better Fuel Economy and enjoying a boost of power at the same time. Clean up your emissions by 90%! That seems too clean & sounds too good to be true.

We welcome you to try it out. We guarantee 20% increase in M.P.G., if not, we will come take the unit off your truck and give you your money back. Add hydroxy gas to your air intake, it is like adding 120 octane strength to your air mix! All this power from a tank of water & electrolyte base running through four cell blocks. Only the highest grade of stainless steel & high tech. plastics of today was used to make the cells. Get "THE CELL®" on your rig today. Currently pending ARB and CARB 's approval of a "smog exempt" decal. The IRS is even giving THE CELL®, approval for a TAX write off for clean emission Standards. Caterpillar & Cummins are talking about adding THE CELL® in their SCR program. Don't sell that old truck, install THE CELL® today. Fleet "pilot car" programs are available for test purposes. Call and find out. Finally an real answer.
